

Drawable

Updateable

Triangle

```
graph BT; Triangle --> Drawable; Triangle --> Updateable;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Triangle'. Two lines extend upwards from the top of the 'Triangle' box, branching out to the left and right. Each line then turns upwards at a right angle, ending in an arrowhead pointing to the bottom of a box above it. The box on the left is labeled 'Drawable', and the box on the right is labeled 'Updateable'. This indicates that 'Triangle' is a base class or interface that 'Drawable' and 'Updateable' inherit from or implement.
